

Damir Prusac is Vice President of Research Alliances at Infobip. He has more than 30 years of experience in the ICT industry. Before joining Infobip, he spent 22 years at Ericsson Nikola Tesla, where he gained extensive experience in the development of large-scale software systems and the leadership of technology organizations.

At Infobip, he served as Vice President of Engineering and was a member of the Management Board. Today, he focuses on developing research alliances, connecting the industry with the research community, and applying new technologies and innovations. He graduated in telecommunications from the Faculty of Electrical Engineering, Mechanical Engineering and Naval Architecture (FESB) in Split and also completed an MBA program in Zagreb.
